FIRST DEGREE PROGRAMME (B.Sc) IN CHEMISTRY

2022 ADMISSION ONWARDS

The BSc Degree programme in Chemistry covers three academic years of six semesters and aims to provide the students with an in-depth understanding and training in chemical sciences. The syllabus has been designed to stimulate the interest of the students in chemistry and prepared in order to equip the students with a potential to contribute to the academic and industrial requirements of the society.

The new, updated syllabus is in accordance with the **OUTCOME BASED EDUCATION** (**OBE**) which aim at acquiring advanced knowledge in Chemistry as a discipline, in an interdisciplinary way. Based on the new guidelines of OBE, **Programme Outcome** (**PO**) *for the First-degree Programme is defined by University of Kerala*. **Programme Specific Outcome** relating to BSc Chemistry (**PSO**) and **Course Outcome** (**CO**) relating to each course are also specified. [CO is of the Remember level (R) understand level (U) and apply level (A) based on Blooms Taxonomy]

Chemistry being an experimental science, due importance is given to the development of laboratory and instrumentation skills. The student is acquainted with the method of science, research methodology and the use of Computational software's and Cheminformatics thus developing basic skills and knowledge of computing and data-based decision making. At the same time, emphasis is given to critically analyse the impact of Chemistry in the present scenario of emerging human friendly and eco-friendly green approach in various facets of life and to become cautious against the random usage of dangerous chemicals.

It also provides a detailed knowledge of the terms, concepts, methods, principles and experimental techniques of chemistry, in order to get a comprehensive knowledge in leading a better life in harmony with nature.

GENERAL ASPECTS OF EVALUATION

MODE OF EVALUATION - COMMON TO CORE, ELECTIVE, COMPLEMENTARY AND FOUNDATION COURSES

Evaluation of each course shall involve Continuous Evaluation (CE) of 20 marks and End Semester Evaluation (ESE) of 80 marks.

1. CONTINUOUS EVALUATION FOR LECTURE COURSES

The Continuous evaluation will have 20 marks and will be done continuously during the semester. CE components are

(i) Attendance for lecture and laboratory sessions (to be noted separately where both lecture and laboratory hours have been specified within a course);

- (ii) Assignment /seminar and
- (iii) Test

The distribution of marks is shown below. There will be two class tests for which, the better of the two marks obtained will form part of CE. Seminar for each course to be organized by the course teacher and assessed along with a group of teachers in the Department. The topic selection by the student for assignments/seminar will be with the approval of the course teacher.

No	Component	Marks
1	Attendance	5
2	Assignment / Seminar	5
3	Tests	10
	Total	20

1.1. EVALUATION OF THE ASSIGNMENTS AND SEMINAR

The topic selection by the student for assignments/seminar will be with the approval of the course teacher. The assignment can be

- 1. A report of about 4-6 pages in A4 size paper
- 2. The topic can be presented either as oral or as power point for 10 minutes duration using audio-visual aids if available. The seminar is to be conducted within the contact hour allotted for the course.
- 3. Preparing Charts on assigned topic.
- 4. Making static or working models. The submitted report /chart /models should be evaluated for assignment marks.

	Mode of Assignments / Seminar Evaluation	
No	Main Component	Marks
	Adherence to overall structure &	All four main components present &
1	submission deadline	satisfactory: 5
2	Content & grasp of the topic	
		Only three: 4 Only
3	Lucidity / Clarity of presentation	two:3
4	References / Interaction/Overall effort	Only one: 2

1.2 QUESTION PAPER PATTERN FOR CONTINUOUS EVALUATION TESTS

- Questions should be 20% hard, 60% medium and 20% easy.
- 1. Each question paper has three sections: A, B, C& D
- 2. Section A has ten compulsory- one word/one sentence questions carrying 1 mark each .
- 3. Section B contains twelve short questions of which 8 questions have to be answered. Each question carries 2 marks.
- 4. Section C contains nine questions of which 6 has to be answered. Each question carries 4 marks. The answer must contain at least 8 points (Short Essay type).
- 5. Section D contains four questions of which 2 has to be answered. Each question carries 15 marks. The answer will of long essay type and can have subdivisions.
