2019-20

Department of Biotechnology

Mar Ivanios College (Autonomous)

# Report on International Symposium on Converging Technologies for Human Welfare: Biotechnology, Nanotechnology, and Information Technology: Concept to Common Life

**Date:** 2nd July 2019

**Supported by:** DBT-STAR Scheme

**Coordinator:** Dr. Lini N.

**Participants:** 250

**Introduction:** The International Symposium on Converging Technologies for Human Welfare aimed to explore the transformative potential of biotechnology, nanotechnology, and information technology in enhancing human life. With a focus on ethical considerations and societal needs, the symposium aimed to foster awareness and collaboration among participants towards achieving impactful societal outcomes.

## **Key Objectives:**

- Raise awareness about the impact and benefits of converging technologies on human welfare.
- Facilitate interaction between internationally renowned speakers and participants to exchange knowledge and insights.
- Educate undergraduate and postgraduate students on the significance of research in these emerging fields.

## **Event Highlights:**

- **Inauguration:** The symposium was inaugurated by Shri. M. Chandra Dathan, Scientific Advisor to Chief Minister of Kerala and Former Director of VSSC. His address highlighted the importance of technological advancements in improving societal well-being.
- **Keynote Address:** Prof. G. M. Nair, Advisor, Kerala Biotechnology Commission, Kerala State Council for Science Technology and Environment, delivered the keynote address focusing on the integration of biotechnology, nanotechnology, and information technology for sustainable development.
- **Sessions and Speakers:**
  - **Prof. Achuth Sankar S. Nair**, Head, Department of Computational Biology & Bioinformatics, University of Kerala, Thiruvananthapuram, provided insights into computational approaches in biotechnology.
  - **Dr. Saji George**, Associate Professor, Canada Research Chair in Sustainable Nanotechnology for Food and Agriculture, McGill University, Canada, discussed applications of nanotechnology in food and agriculture.
  - **Dr. Sanalkumar Rajendran**, Associate Scientist, University Institute of Pathology, CHUV, Switzerland, shared advancements in information technology for healthcare and pathology.

- Competitions:** Poster and oral presentation competitions were held during the symposium. Participants showcased their research and innovative ideas, with winners receiving certificates and cash prizes to encourage further exploration in converging technologies.

The International Symposium on Converging Technologies for Human Welfare served as a platform for interdisciplinary dialogue and collaboration. It successfully highlighted the potential of biotechnology, nanotechnology, and information technology to address global challenges and improve human life. The symposium inspired participants, especially students, to engage in research and innovation that can contribute to societal well-being and

The collage consists of three documents:

- Left Document: Registration Information**
  - REGISTRATION INFORMATION**
    - Registration fee: STUDENTS ₹ 2000
    - REGIST. MEMBERS ₹ 3000
    - SPOT REGISTRATION ₹ 1500
  - POSTER PRESENTATION**
    - Dimension of the poster should be 10cm (width) x 120cm (vertical) size
    - Letter size should be 10mm (letter size 10pt) for headings, 10mm (letter size 10pt) for authors and affiliation and 10mm (letter size 10pt) for text.
    - The poster should be organized into sections such as introduction, objectives, materials and methods, results and conclusion.
    - The poster should be laid with flowcharts, diagrams, pictures and photographs.
    - Poster should be prepared in glossy paper/glossy paper/foam etc. (POSTER PRESENTATION IS NOT PERMITTED)
  - REGISTRATION FORM**
    - Name: \_\_\_\_\_
    - Designation: \_\_\_\_\_
    - Address: \_\_\_\_\_
    - Phone number: \_\_\_\_\_
    - Email address: \_\_\_\_\_
    - Participation  Poster presentation  Oral presentation
  - Important Dates**
    - Last date of registration: 25<sup>th</sup> June 2019
    - Last date for submission of abstract: 25<sup>th</sup> June 2019
  - Abstract and registration form can be credited to the following email id:** [marivani@marivani.ac.in](mailto:marivani@marivani.ac.in)
  - For enquiries, contact:** Dr. Lax N. Moh. #12072228

  - CONVERGING TECHNOLOGIES FOR HUMAN WELFARE**  
BIOTECHNOLOGY, NANOTECHNOLOGY AND INFORMATION TECHNOLOGY - CONCEPT TO COMMON LIFE
  - 2 JULY 2019**
  - Organized by: Department of Biotechnology, Mar Ivanios College
  - VENUE: MAR IVANIOS COLLEGE**  
TIME: 8.30 AM TO 4.30 PM
  - Supported by: DRB STAR SCHEME, MAR IVANIOS COLLEGE
- Right Document: Program Schedule**
  - ORGANISING COMMITTEE**
  - PROGRAMME SCHEDULE**
  - 8.30 AM to 9.30 AM : Registration
  - 9.30 AM to 11.00 AM : Inaugural Session
  - Welcome : **Dr. Lax N.**  
Assistant Professor, Department of Biotechnology, Mar Ivanios College
  - Presidential Address : **Dr. K. J. George**  
Principal, Mar Ivanios College
  - Inauguration : **Shri. M. Chandrasekhar**  
Scientist, Advisor to Chief Minister of Kerala, Science Director, IITC
  - Key Note Address : **Prof. G. M. Nair**  
Advisor, Kerala Biotechnology Commission, Kerala State Centre For Science Technology and Environment, Kerala
  - Initiation : **Rev. Fr. Justin Kochupilly**  
Rector, Mar Ivanios College
  - Prof. Jayachandran**  
Head, Department of Biotechnology, School of Biosciences, M.G. University, Kottayam.
  - Prof. Adarsh Sankar. S. Nair**  
Head, Department of Computational Biology and Bioinformatics, University of Kerala.
  - Dr. Saji George**  
Assistant Professor, Department of Food Science and Agricultural Chemistry, McGill University, Canada
  - Dr. Sunilkumar Rajendran**  
Assistant Scientist, University Institute of Pathology, CHUV, Switzerland
  - Vote of Thanks : **Dr. Deepthy Alex**  
Assistant Professor, Department of Biotechnology, Mar Ivanios College
  - 11.00 to 11.15 : Tea Break
  - ORGANISING COMMITTEE**
  - Dr. Rama Rajan**  
Guest Lecturer, Department of Biotechnology, Mar Ivanios College, Thiruvananthapuram
  - Dr. Raju V. Raju**  
Guest Lecturer, Department of Biotechnology, Mar Ivanios College, Thiruvananthapuram
  - DEPARTING TED-PHILADELPHIA FOR HUMAN WELFARE: BIOTECHNOLOGY, NANOTECHNOLOGY AND INFORMATION TECHNOLOGY - CONCEPT TO COMMON LIFE**
  - International Symposium*

sustainable development.

# Report on Institute Visit to CSIR-National Institute of Oceanography, Goa

**Date of Visit:** 20-01-2020

**Coordinator:** Sajeesh R.

**Objective of Visit:** The visit aimed to provide students and faculty members with an opportunity to explore selected labs at CSIR-National Institute of Oceanography, Goa, and engage with its research and academic environment.

**Overview:** On 20-01-2020, a group of 30 students accompanied by faculty members from Mar Ivanios College visited CSIR-National Institute of Oceanography, Goa. The visit was organized by Sajeesh R. to expose our students to the advanced research and academic facilities in oceanography.

## **Activities and Highlights:**

1. **Welcome and Introduction:** The group received a warm welcome from the institute, where an introduction to its mission, research areas, and academic programs was provided.
2. **Lab Tours:** Students and faculty members toured selected laboratories relevant to oceanography, gaining insights into ongoing research projects and technologies.
3. **Interaction with Scientists:** Interactive sessions with scientists allowed students to discuss research methodologies, findings, and career opportunities in oceanographic sciences.
4. **Q&A and Networking:** A Q&A session provided students with the opportunity to engage directly with scientists and clarify their queries about research and career paths in oceanography.

**Conclusion:** The visit proved highly educational and inspiring for both students and faculty members. It provided valuable exposure to the cutting-edge research and academic environment at CSIR-National Institute of Oceanography, Goa, fostering potential collaborations and deeper engagement in oceanographic sciences.

# **A journey through Entrance Exams in Life science: A career orientation program**

Janaki Nair, Jawahar Lal Nehru University,  
Arya Suresh, Central University Hyderabad  
Awasthi BJ, IISER TVM on 4<sup>th</sup>,5<sup>th</sup>, and 6<sup>th</sup> August 2020.

Coordinators: **Dr.Lini.N & Dr.Sajeesh T**

## **Session 1: A Journey through Entrance Exams in Life Sciences**

**Date:** 4th August 2020

**Speaker:** Janaki Nair, Jawaharlal Nehru University

### **Objective:**

The session aimed to provide students with insights into the various entrance exams relevant to life sciences and orient them towards potential career paths in the field.

### **Key Highlights:**

- **Introduction:** Janaki Nair provided an overview of the importance of entrance exams in shaping careers in life sciences.
- **Exam Overview:** Detailed discussions on entrance exams such as JNU Entrance Exam (JNUEE), GATE-BT, ICMR-JRF, and others, including their syllabi, exam patterns, and eligibility criteria.
- **Career Guidance:** Guidance on career opportunities post clearing these exams, including opportunities in research, academia, and industry.
- **Q&A Session:** An interactive Q&A session allowed participants to clarify doubts and seek advice directly from Janaki Nair.

### **Conclusion:**

The session proved highly informative, equipping students with valuable knowledge about entrance exams and career prospects in life sciences, thereby guiding them towards informed career decisions.

## **Session 2: A Journey through Entrance Exams in Life Sciences**

**Date:** 5th August 2020

**Speaker:** Arya Suresh, Central University Hyderabad

### **Objective:**

This session aimed to deepen students' understanding of various entrance exams in life sciences and provide insights into career opportunities available post-exam.

### **Key Highlights:**

- **Introduction:** Arya Suresh introduced the session and highlighted the significance of competitive exams in life sciences education.
- **Exam Insights:** Detailed analysis of entrance exams like CSIR-UGC NET, DBT-JRF, and others, focusing on exam structure, preparation strategies, and recommended study resources.
- **Career Perspectives:** Discussion on career paths after clearing these exams, including roles in research institutes, universities, pharmaceutical companies, and biotechnology firms.
- **Interaction:** Arya Suresh engaged with participants through interactive discussions and encouraged questions on exam preparation and career planning.

### **Conclusion:**

The session provided comprehensive insights into various life sciences entrance exams and career opportunities, empowering students with the knowledge needed to pursue successful careers in the field.

### **Session 3: A Journey through Entrance Exams in Life Sciences**

**Date:** 6th August 2020

**Speaker:** Awasthi BJ, IISER Thiruvananthapuram

### **Objective:**

To educate students about the nuances of entrance exams in life sciences and inspire them towards impactful careers in the scientific community.

### **Key Highlights:**

- **Introduction:** Awasthi BJ commenced the session by emphasizing the role of entrance exams in shaping future careers in life sciences.
- **Exam Focus:** In-depth coverage of exams such as IISER Integrated PhD, NIPER JEE, and others, highlighting exam patterns, syllabi, and preparation strategies.
- **Career Opportunities:** Insights into diverse career opportunities post clearing these exams, including research fellowships, academic positions, and entrepreneurship in biotechnology.
- **Interactive Session:** Participants actively engaged in discussions, seeking guidance on exam preparation techniques and career pathways from Awasthi BJ.

### **Conclusion:**

The session was instrumental in guiding students towards understanding the complexities of life sciences entrance exams and fostering their enthusiasm for pursuing meaningful careers in the scientific realm.

## Alumni Webinar A Journey Through Entrance Exams in Life Sciences

Organized by DEPARTMENT OF BIOTECHNOLOGY

04, 05 & 06 AUGUST 2020  
3:00 - 4:00 PM

**04 AUG**  
Janaki Nair  
JNU, New Delhi

**05 AUG**  
Arya Suresh  
University of Hyderabad

**06 AUG**  
Aswathy BJ  
IISER, Trivandrum

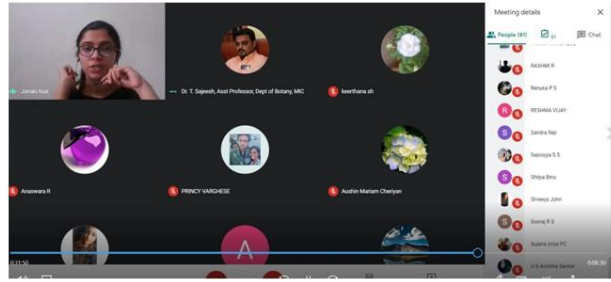

**Patron and Manager**  
His Beatitude Moran Mor Baselios  
Cardinal Cleemis Catholicos

**Chairman**  
Dr. K.I. George  
Principal

**Conveners**  
Dr. Lini N.  
Dr. T. Sajeesh

**Co-conveners**  
Dr. Sajeesh  
Dr. Deepthy Alex

Arya Suresh is presenting

### Graduate Aptitude Test - Biotechnology (GAT-B)

- Previously Combined Entrance Examination for Biotechnology (CEEB) by JNU
- Conducted by the Regional Centre for Biotechnology on behalf of the Department of Biotechnology, Government of India.
- The candidates will be given a **GAT-B rank** based on which they may apply to the various DBT-supported PG programmes in participating institutions.

Aswathy Jayan is presenting

## AFTER BACHELORS...

► MSc/Mtech

**Qualification :** Btech /Bse (eligible only for MSc)

**Years:** 2-3

**Exams :** IIT JAM ( for MSc) , GATE Biotech/life science for MTech, JGEEBILS,GAT-B

**Perks :**

- Can choose a different institute for PhD
- Masters in institutes of national importance are preferred by foreign universities.
- Can use the same GATE score to join PhD ( if it is still valid)
- No interviews, admission through common admission portals (except through JGEEBILS)

# **Report on International Webinar on Mass Spectrometry: Basic Principles and Fundamental Applications**

**Date:** 23rd October 2020

**Speaker:** Dr. Bini Ramachandran, Postdoctoral Research Associate, Food Allergy Research and Resource Program, University of Nebraska, Lincoln, NE

**Cordinator:** Dr.Lini.N

## **Objective:**

The international webinar aimed to provide participants with foundational knowledge of mass spectrometry, focusing on its basic principles and fundamental applications in various fields.

## **Key Highlights:**

- **Introduction:** Dr. Bini Ramachandran commenced the webinar by introducing the fundamental concepts of mass spectrometry (MS) and its significance in analytical chemistry and research.
- **Basic Principles:** Detailed explanations of the principles underlying MS, including ionization techniques (such as ESI and MALDI), mass analyzers (like TOF and quadrupole), and detection methods.
- **Applications:** Exploration of the diverse applications of MS across different disciplines, including proteomics, metabolomics, environmental analysis, and clinical diagnostics.
- **Case Studies:** Dr. Bini Ramachandran presented case studies and examples showcasing how MS is used to solve real-world problems and advance scientific research.
- **Q&A Session:** An interactive Q&A session allowed participants to engage directly with Dr. Bini Ramachandran, seeking clarifications and further insights on MS techniques and applications.

## **Conclusion:**

The webinar proved to be an enlightening and educational experience, providing participants with a comprehensive understanding of mass spectrometry's foundational principles and its wide-ranging applications. It empowered attendees with the knowledge necessary to leverage MS techniques effectively in their respective fields of research and analysis.
