Invitation

Dear Sir/Madam, The Post Graduate and Research department of Mathematics, Mar Ivanios College (Autonomous) is organizing an International Conference on Semigroups, Algebras, Discrete Structures and Applications (ICSADA-2024) in association with the Institute of Mathematics Research and Training (IMRT) from 15-17, February 2024. We would like to invite you to participate in the conference.

Fr. Vincy Varghese
Principal.

Mr. Sumesh S S
Head of the Department
Organizing Secretary

Dr. A. R. Rajan
Director, IMRT
General Convener

About the College

Mar Ivanios College was established in 1949 and pursues excellence upholding the far-sighted vision of our revered Founder, Servant of God Archbishop Mar Ivanios. The College is the first Institution in the University of Kerala to receive accreditation from NAAC in 1999 and the first private college affiliated with the University of Kerala to receive the status of CPE from the UGC. The College has been conferred with Autonomy status by the University of Kerala with effect from 13th June 2014.

About the Department

The department of Mathematics was established in 1950 with a three-year UG program. It became a PG department in the year 1982 and a research department in 2009. The department offers one UG program in Mathematics and two PG programs, one in Mathematics, and another in Statistics with Specialization in Data Analytics. The Department regularly organizes various national academic programs in collaboration with reputed Institutions of Higher Education in the country.

About IMRT

The Institute of Mathematics Research and Training (IMRT) is aimed at promoting research orientation among teachers and students in Mathematics. Workshops, Seminars, and Discussions are organized in collaboration with Universities, Colleges, and other Institutions on topics connected with Mathematics education and research. From 2015 onwards IMRT has been conducting a series of Workshops under the title Mathematics Enrichment Program for Graduate Students with special emphasis on problem solving.

About the Conference

The conference aims to provide the researchers and PG students of Mathematics with the classical and latest developments in the fields of semigroups, algebras, discrete structures, and their applications. The talks are mainly intended to give foundations of research in the areas of discussion. The basics and current trends in international research centres will be discussed in this three-day conference. The academic sessions will include invited talks by international and national experts and presentations of research papers. The conference will be a platform for researchers from India and abroad to come together and exchange ideas on the topics of discussion, foster future collaborations, and provide opportunities for young researchers to open their horizons in the relevant fields.

Thrust Areas

- Theory of Semigroups
- Rings and Semirings
- Languages and Automata
- Discrete Structures and Applications
- Operator Semigroups and Algebras
- Algebras
- Group Theory
- Category Theory
- Lattice Theory
